SUMMARY OF INFORMATION:

When first given the coordinates, I could see a group of people sitting around a table. One guy with black hair and a dark colored suit seemed to be at the head of the table and in charge. The rest of the people were sitting around the table and talking. Some were angry, arguing, and almost shouting. But the guy in charge was only listening to them. All of the people were older men, some of them bald, some had white hair, and others had something on their head. They had deep, raspy voices. They were having a meeting or conference of some sort. The back of the chairs they were sitting in were really high, almost to shoulder level as they sat. The ceiling in the room was

also very high and the walls were plain. There were only a few pictures or old paintings on some of the walls. Most of them were empty. The entire building was a huge structure. It was rectangular/square shape with a large dome on the top with a sharp tip. It is an old building with many small details and arches.

The object of interest is rounded and dark. I could see a strange airplane flying overhead. It was dark in color, dark blue or black, long, narrow, and the wings seemed to be flat. There is a round object below it and two flashes of light, "flash", "flash", they are very quick and very bright. There is also a long rectangular, boxy, narrow shaped object that has a metal thing coming out of one end. The end of the metal thing was curved, (see sketch). Also, somewhere on this object were jagged, arrow-like markings or protrusions. This object seems to be far away, I can't get very close to it, but something about this object is "high frequency", possibly the sound of it. The purpose of this object is to be used as a weapon.

SUMMARY OF INFORMATION:

There are nine people sitting around a table, four men on each side and one dark haired man sitting on the end. men. They are talking to each other, sometimes shouting. The man sitting on the end of the table is listening. He does not say very much, but when he does he speaks very loud. He is almost overpowering. He is in complete control. They are having a meeting and are planning something. I could not access the person to find out what it was. The table in front of them is very hard, made of marble or very hard wood. There are a few pieces of paper on the table but nothing else. The walls in this room are bare. There are a few old paintings hanging up, but nothing else on the walls. The ceiling is very high. The room is large, but it is empty, except for this table.

I could also see a strange object. It is round, with jagged points on the end of it. It is very bright. This object kept appearing out of nowhere, confusing me as to whether I was in this room or out of it.
